LIST OF TABLES

APPORTIONMENT

Due to the lapse in the Federal Aviation Administration's reauthorization legislation, CY 92/FY 94 Airport Improvement Program apportionment information is not included.

TOP 50 CARRIERS

1. Top 50 Air Taxi/Commercial Operators for 1992 (ATCO)
2. Top 50 Small Certificated/Commuter Carriers for 1992 (CAC)
3. Top 50 Large Certificated Air Carriers for 1992 (LCRAC)
4. Top 50 Foreign Flag Air Carriers for 1992 (FFC)

ENPLANEMENTS BY RANK ORDER

5. VP - Primary Airport Enplanement Activity for CY 1992
6. C12 - Changes in Revenue Passenger Enplanements at Primary Airports (X Change CY 1991 to CY 1992)
7. C10 - Revenue Enplaned Passenger Activity at Primary Airports (CY 1992 to CY 1985)
8. V10 - Non-Primary Commercial Service Airport Enplanement Activity
9. V12 - Enplanement Activity for Airports with 1,000-2,500 Enplanements
10. V7A - Airports Ineligible to be Classified as Commercial Service
11. V1 - Enplanement Activity for CY 1992 (Rank Order from 1 - 1,821)

ENPLANEMENTS BY STATE

12. V2 - Enplanement Activity for CY 1992 by Rank Order Within the State
13. V3P - Enplanement Activity for CY 1992 for Airports With Scheduled Service and 2,500 or More Passengers Enplaned
14. C8 - Revenue Passenger Enplaned by Region and State from CY 1985 to CY 1992
15. C9R - Changes in Revenue Passenger Enplanements by Region and State (Base Year 1992)
16. N2 - Airport Enplanement Activity for CY 1992 at Military Airports, Including Joint-Use Airports

ALL-CARGO ACTIVITY

17. F10 - All Cargo Activity from CY 1988 to CY 1992 by Rank Order (Reporting Cargo Airports in CY 1992)
18. C14 - Comparison of Enplanement and Cargo Ranking of Reporting Cargo Airports

INTRODUCTION

The Enplanement and All-Cargo Activity publication is a summary of enplanement data extracted from the Air Carrier Activity Information System (ACAIS). The ACAIS is a database which contains revenue passenger enplanement data and all-cargo landing data. The database supports the Federal Aviation Administration's (FAA) Airport Improvement Program (AIP) entitlement activities.

ENPLANEMENT DATA

Enplanement data is derived from a variety of sources. U.S. scheduled and nonscheduled large certificated air carriers submit enplanement data to the U.S. Department of Transportation/Research and Special Programs Administration (RSPA) on Form 41 Schedule T-100. Foreign Flag Air Carriers submit data to RSPA on Form 41 Schedule T-100(f). Commuter and small certificated air carriers submit data to RSPA on Form 298-C, Schedules T1 and E1. Air taxi/commercial operators submit their enplanement data to the FAA during an annual survey on FAA Form 1800-31.

The data obtained from these sources are merged into ACAIS. This data is then reviewed by FAA staff and the individual airports. Erroneous or inconsistent data is coordinated with the air carrier; the appropriate revisions are made; and the data is finalized.

For AIP purposes, passengers enplaned also includes passengers onboard international flights that transit an airport located in the 50 states for non-traffic purposes. In calendar year 1992, this amounted to 2,397,756 additional enplanements at 7 airports (Anchorage, Alaska; Bangor, Maine; Bellingham, Washington; Port Angeles, Washington; St. Petersburg/Clearwater, Florida; Laredo, Texas; and Honolulu, Hawaii).

In 1990, Congress enacted legislation which allows public agencies controlling commercial service airports to charge enplaning passengers using the airport a \$1, \$2, or \$3 passenger facility charge (PFC). Public agencies wishing to impose a PFC must apply to the FAA for such authority and meet certain requirements. Large and medium hub airports implementing a PFC receive a 50 percent reduction in entitlement amounts. Thirty-five large and medium hub airports will receive reductions in CY 92/FY 94.

ALL-CARGO DATA

All-cargo data is compiled for airports with an annual minimum of 100 million pounds of all-cargo aircraft landed weight. Cargo carriers report the landed weight of all-cargo aircraft to the airport. The airport then completes FAA Form 5100-108 and submits the data to the FAA. The data is certified by the carrier and the airport.

The FAA compiles and merges the data into ACAIS. The data is then reviewed by FAA staff and the individual airports. Erroneous or inconsistent data is coordinated with the airport; the appropriate revisions are made; and the data is finalized.

DISTRIBUTION OF ENTITLEMENT FUNDS

The FAA reauthorization legislation is pending in Congress. Since the pending legislation could affect entitlement funds, distribution of CY 92/FY 94 funds cannot occur until it is passed. Therefore, we were unable to include any data containing entitlement information in this publication.

Under the existing Airport and Airway Improvement Act of 1982, primary airports receive an entitlement amount based on a per passenger formula with a specific minimum and maximum entitlement amount. All-cargo airports receive cargo entitlement funds based on each eligible cargo service airport's percentage of the landed weight at all qualifying airports with the maximum for any airport set at 8% of the total cargo funds.

GLOSSARY

ACAIS (Air Carrier Activity Information System): ACAIS is a database of revenue passenger enplanement data and all-cargo landing data that is used in the distribution of AIP entitlement funds.

AIP (Airport Improvement Program): Provides funds from the Airport and Airway Trust Fund to eligible airports sponsors for airport planning, airport development, noise compatibility planning, and to carry out noise compatibility programs.

Air Carrier: Entity providing air transportation of persons or goods for remuneration. In ACAIS, carriers are classified as follows:

- o Large Certificated Route Air Carriers (LCRAC)
- o Small Certificated and Commuter Air Carriers (CAC)
- o Air Taxi/Commercial Operators (ATCO)
- o Foreign Flag Air Carriers (FFC)

Air Taxi/Commercial Operator: Commercial air carrier operating on-demand air taxi services or aircraft. Certificated in accordance with Federal Aviation Regulation Part 135. Categorized in ACAIS as "ATCO."

Airport and Airway Trust Fund: Mechanism for funding capital improvements for the Nation's air traffic control system and airports. The fund is supported by taxes contributed by users of the aviation system, including a 10% tax on airline passengers and tax on the fuel used by general aviation. Established by the Airport and Airway Revenue Act of 1970.

All-Cargo Carrier: One of a class of carriers holding an All-Cargo Air Service Certificate issued under section 418 of the Federal Aviation Act and certificated in accordance with Federal Aviation Regulations Part 121 to provide domestic air transportation of cargo.

Apportionment of Entitlement: Distribution of AIP funds from the Airport and Airway Trust Fund to airport sponsors based on enplanements or cargo landed weights. Apportionment and entitlement are used interchangeably in this publication.

Certificate of Public Convenience and Necessity, "CC and N": A certificate issued to an air carrier under Section 401 of the Federal Aviation Act, by the Department of Transportation, authorizing the carrier to engage in air transportation.

Certificated Air Carrier: An air carrier holding a "CC and N" to conduct schedule services interstate. Nonscheduled or charter operation may also be conducted by these carriers. These carriers operate large aircraft (30 seats or more or a maximum payload capacity of 7,500 pounds or more) in accordance with Federal Aviation Regulation Part 121. Categorized in ACAIS as "LCRAC."

Commercial Service Airport: A public airport which is determined by the Secretary to enplane annually 2,500 or more passengers and receive scheduled passenger service of aircraft. The commercial service airports are further categorized as Primary and Non-Primary Commercial Service Airports (based on the Airport and Airway Improvement Act of 1982, as amended).

- o Primary Airport is a commercial service airport which is determined by the Secretary to have more than 10,000 passengers enplaned annually. A primary airport can be classified as large, medium, small, or non-hub.
- o Non-Primary Airport is a commercial service airport which is determined by the Secretary to enplane between 2,500 and 10,000 passengers annually.

Commuter Air Carrier: An air carrier certificated in accordance with Federal Aviation Regulation Part 135 that operates aircraft with 30 seats or less and a maximum payload capacity of 7,500 pounds or less and performs at least five round trips per week between two or more points and publishes a flight schedule. Categorized in ACAIS as "CAC."

Enplanement: Domestic, territorial, and international revenue passengers who board an aircraft in the states in scheduled and non-scheduled service of aircraft in intrastate, interstate, and foreign commerce and includes intransit passengers (passengers on board international flights which transit an airport in the US for nontraffic purposes).

Foreign Flag Air Carrier: An air carrier other than a U.S. flag air carrier in international air transportation. Categorized in ACAIS as "FFC."

General Aviation: That portion of civil aviation which encompasses all facets of aviation except carriers holding a "CC and N" issued by the DOT.

Intransit Passengers: The Act of 1982, as amended, expanded the definition of passengers enplaned to include revenue passengers onboard international flights which transit an airport for non-traffic purposes in all 50 States.

Joint-Use Airport: A military installation at which the Department of Defense permits some degree of civil aviation use. Degrees of civil aviation use include: 1) open to all civil aviation under a joint use agreement; or 2) joint-use agreement for limited use. Strictly military airports do not qualify for primary or commercial service status.

Landed Weight: The weight of an aircraft providing scheduled and non-scheduled service of only property (including mail) in intrastate, interstate, and foreign air transportation.

Large Certificated Route Air Carrier: An air carrier holding a "CC and M" that: 1) operates aircraft designed to have a maximum seating capacity of more than 60 seats or 2) maximum payload capacity of more than 18,000 pounds. Categorized in ACAIS as "LCRAC."

LOCID: Location Identifier assigned to each U.S. airport by the Federal Aviation Administration.

PFC (Passenger Facility Charge): Public agencies controlling a Commercial Service Airport can charge enplaning passengers using the airport a \$1, \$2, or \$3 facility charge. Public agencies must apply to the FAA and meet certain requirements in order to impose a PFC.

Reliever Airport: An airport, including heliport, designated by the Secretary of Transportation as having the function of relieving current or forecast congestion at a commercial service airport and providing more general aviation access to the overall community.

Revenue: Pertaining to transport activities for which remuneration is received by the carrier.

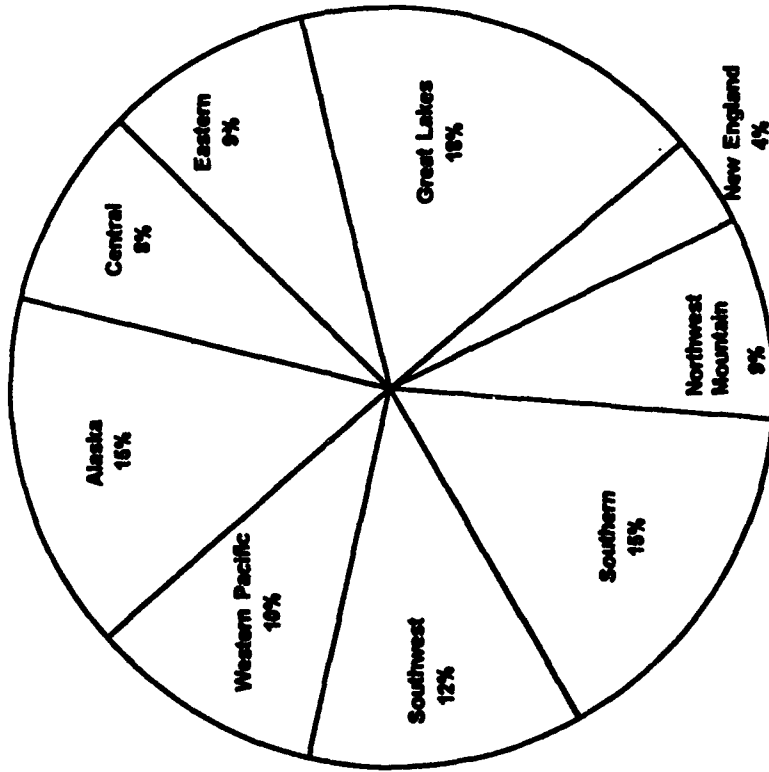

Revenue Passenger: Person receiving air transportation from the air carrier for which remuneration is received by the air carrier. Air carrier employees or others receiving air transportation against whom token service charges are levied are considered nonrevenue passengers. Infants for whom a token fare is charged are not counted as passengers.

Scheduled Service: Transport service operated pursuant to published flight schedules, including extra sections and related non-revenue flights.

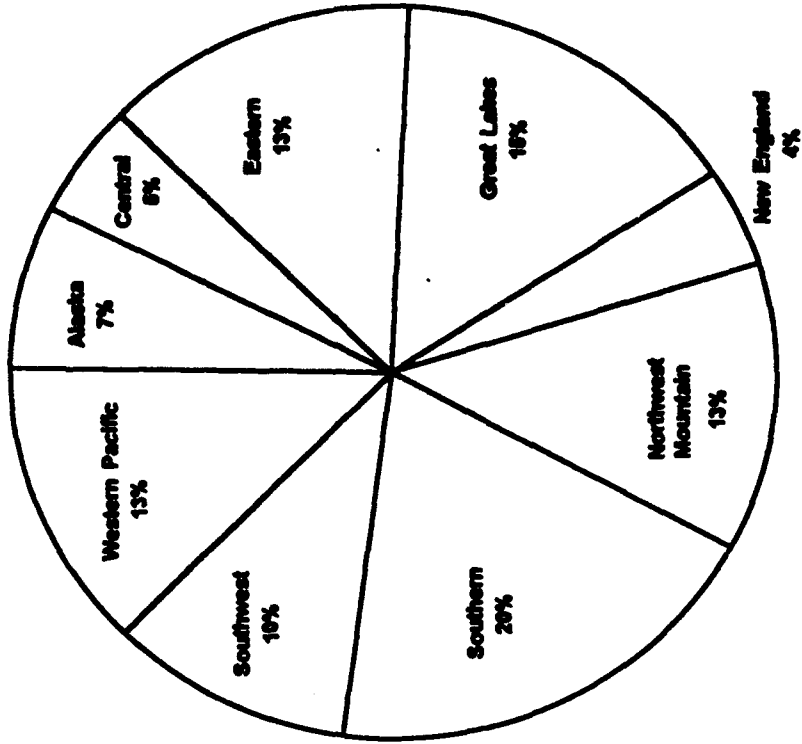

NOTE: The terms in this Glossary are defined as they pertain to this publication.
